

Hexham Wind Farm

Table of Contents

Contents

Abbreviations and glossary	i
-----------------------------------	----------

Executive summary	ES-1
--------------------------	-------------

Chapter 1 Introduction

1.1	Introduction	1-1
1.2	Project overview	1-1
1.2.1	Location, components and duration	1-1
1.2.2	Project objectives	1-5
1.2.3	Project history and design evolution	1-5
1.3	Project proponent	1-6
1.4	Environment Effects Statement	1-6
1.4.1	Requirement for an EES	1-6
1.4.2	EES purpose	1-7
1.4.3	Scoping requirements and EES evaluation objectives	1-7
1.4.4	EES process	1-8
1.4.5	Structure of the EES	1-9
1.4.6	Accessing the EES and making a submission	1-12

Chapter 2 Project rationale and benefits

2.1	Overview	2-1
2.2	Site characteristics	2-1
2.3	Policy context	2-2
2.3.1	International context	2-2
2.3.2	Commonwealth context	2-3
2.3.3	Victorian context	2-5
2.3.4	Local and regional policies	2-9
2.4	Environmental benefits	2-11
2.5	Economic benefits	2-12
2.5.1	Electricity costs	2-12
2.5.2	Investment in the wind sector	2-12

2.5.3	Employment and economic stimulus	2-12
2.5.4	Neighbour Benefit Sharing Program	2-13
2.6	Achieving project objectives	2-15

Chapter 3 Legislation and policy framework

3.1	Overview	3-1
3.2	Project approvals process	3-1
3.3	Principal approvals	3-3
3.3.1	<i>Environment Protection and Biodiversity Conservation Act 1999</i>	3-3
3.3.2	<i>Planning and Environment Act 1987</i>	3-3
3.3.3	<i>Aboriginal Heritage Act 2006</i>	3-4
3.3.4	<i>Mineral Resources (Sustainable Development) Act 1990</i>	3-5
3.4	Other relevant legislation and approvals	3-5
3.4.1	<i>Environment Protection Act 2017</i>	3-5
3.4.2	Environment Protection Regulations 2021	3-6
3.4.3	<i>Heritage Act 2017</i>	3-7
3.4.4	<i>Water Act 1989</i>	3-7
3.4.5	<i>Catchment and Land Protection Act 1994</i>	3-8
3.4.6	<i>Flora and Fauna Guarantee Act 1988 and Flora and Fauna Guarantee Amendment Act 2019</i>	3-8
3.4.7	<i>Wildlife Act 1975</i>	3-8
3.4.8	<i>Road Management Act 2004</i>	3-8
3.4.9	<i>Crown Land (Reserves) Act 1978</i>	3-9
3.4.10	<i>Land Act 1958</i>	3-9
3.4.11	<i>Climate Change Act 2017</i>	3-9
3.5	Key policies, guidelines and strategies	3-9
3.5.1	Policy and planning guidelines for development of wind energy facilities in Victoria	3-9
3.5.2	Significant Economic Development	3-10
3.5.3	Guidelines for the removal, destruction or lopping of native vegetation	3-11
3.5.4	Interim Guidelines for the Assessment, Avoidance, Mitigation and Offsetting of Potential Wind Farm Impacts on the Victorian Brolga Population 2011	3-11
3.6	Relevant legislation and guidelines for EES assessment	3-11

Chapter 4 Assessment framework

4.1	Overview	4-1
4.2	EES assessment framework	4-2
4.3	Evaluation framework	4-4
4.4	Assessment approach	4-7
4.4.1	Preparing the concept design	4-9
4.4.2	Undertaking a preliminary risk assessment	4-1
4.4.3	Characterising the existing conditions	4-11
4.4.4	Modelling project effects and assessing impacts	4-11
4.4.5	Peer review	4-14
4.4.6	Assessment of alternatives	4-15
4.4.7	Assessing cumulative effects	4-16
4.5	Stakeholder engagement	4-17
4.6	Environmental management framework	4-18
4.7	Assurance	4-19

Chapter 5 Assessment of alternatives and design development

5.1	Overview	5-1
5.2	Design development	5-2
5.2.1	Key design criteria	5-3
5.2.2	Optimising efficiency	5-3
5.2.3	Access to land	5-4
5.2.4	Limiting impacts	5-4
5.3	Design evolution	5-9
5.3.1	Initial design	5-9
5.3.2	Revised concept design	5-9
5.3.3	Current project design	5-1
5.3.4	Status of assessment of alternatives	5-10
5.4	Approach to assessment of alternatives	5-13
5.5	Alternative infrastructure options	5-13
5.5.1	Wind turbine selection	5-13
5.5.2	Scale alternatives	5-14
5.5.3	Internal cabling	5-14
5.5.4	On-site terminal station	5-14

5.5.5	Quarry selection	5-14
5.5.6	Site access	5-15
5.5.7	Access tracks	5-15
5.6	'No project' alternative	5-16

Chapter 6 Project description

6.1	Overview	6-1
6.2	Project components and layout	6-7
6.2.1	Wind turbine generators	6-7
6.2.2	Access tracks and site access from public roads	6-11
6.2.3	Electrical reticulation and distribution	6-12
6.2.4	Battery energy storage system	6-13
6.2.5	Operations and maintenance facility	6-15
6.2.6	Meteorological monitoring masts	6-17
6.3	Temporary infrastructure components and layout	6-17
6.3.1	Quarry	6-19
6.3.2	Construction site office and compounds	6-21
6.3.3	Staging areas	6-21
6.3.4	Concrete batching plants	6-21
6.3.5	Washdown facilities	6-21
6.4	Project phases	6-22
6.4.1	Pre-construction	6-23
6.4.2	Construction	6-24
6.4.3	Operation	6-39
6.4.4	Decommissioning and rehabilitation	6-40

Chapter 7 Stakeholder consultation

7.1	Overview	7-1
7.2	Legislative requirements and guidelines	7-2
7.2.1	Legislation	7-2
7.2.2	Guidelines	7-2
7.2.3	Scoping requirements	7-3
7.3	Engagement approach	7-3
7.4	Stakeholder identification	7-4

7.5	Stakeholder engagement methods – affected parties	7-9
7.6	Stakeholder engagement methods – interested parties	7-16
7.6.1	Elected representatives	7-16
7.6.2	Australian Energy Infrastructure Commissioner	7-16
7.6.3	Technical Reference Group	7-17
7.6.4	Government organisations	7-17
7.6.5	Moyne Shire Council motions	7-17
7.6.6	Registered Aboriginal Parties	7-20
7.7	Engagement in relation to specialist studies	7-20
7.8	Engagement outcomes	7-25
7.8.1	Neighbour opinion poll	7-25
7.8.2	Issue identification	7-26
7.9	Community and neighbour benefit sharing	7-31
7.10	Engagement during EES exhibition	7-32
7.11	Planned engagement post-EES exhibition	7-33

Chapter 8 Biodiversity and habitat

8.1	Overview	8-1
8.2	EES objectives and key issues	8-3
8.3	Legislation, policy and guidelines	8-4
8.4	Investigation area	8-7
8.5	Method	8-8
8.5.1	Desktop review	8-8
8.5.2	Vegetation and flora assessment	8-9
8.5.3	Fauna assessment	8-10
8.5.4	Groundwater Dependent Ecosystem assessment	8-12
8.6	Existing conditions	8-13
8.6.1	Native vegetation	8-14
8.6.2	Flora	8-19
8.6.3	Fauna	8-21
8.6.4	Groundwater Dependent Ecosystems	8-31
8.7	Impact assessment	8-32

8.7.1	Impact pathways	8-32
8.7.2	Design mitigation	8-33
8.7.3	Environmental management measures	8-36
8.7.4	Offsets	8-47
8.7.5	Residual impacts	8-48
8.7.6	Cumulative impacts	8-58
8.7.7	Impact assessment summary	8-58
8.8	Conclusions	8-76

Chapter 9 Bats

9.1	Overview	9-1
9.2	EES objectives and key issues	9-2
9.3	Legislation, policy and guidelines	9-3
9.4	Investigation area	9-5
9.5	Method	9-8
9.5.1	Bat detector surveys	9-9
9.5.2	Grey-headed Flying-fox surveys	9-10
9.6	Existing conditions	9-11
9.6.1	Southern Bent-wing Bat	9-1
9.6.2	Yellow-bellied Sheath-tailed Bat	9-15
9.6.3	Grey-headed Flying-fox	9-17
9.6.4	Other (non-threatened) bat species	9-19
9.7	Impact assessment	9-20
9.7.1	Impact pathways	9-20
9.7.2	Design mitigation	9-21
9.7.3	Environmental management measures	9-27
9.7.4	Residual impacts	9-30
9.7.5	Cumulative impacts	9-32
9.8	Conclusions	9-33

Chapter 10 Brolga

10.1	Overview	10-1
10.2	EES objectives and key issues	10-2
10.3	Legislation, policy and guidelines	10-3
10.4	Investigation area	10-4
10.5	Method	10-6
10.5.1	Level of assessment triggers and methods	10-6
10.6	Existing conditions	10-10
10.6.1	Species description	10-10
10.6.2	Population and distribution	10-10
10.6.3	Brolga habitat	10-14
10.7	Impact assessment	10-17
10.7.1	Impact pathways	10-17
10.7.2	Design mitigation	10-18
10.7.3	Environmental management measures	10-24
10.7.4	Residual impacts	10-26
10.7.5	Cumulative impacts	10-27
10.8	Conclusions	10-28

Chapter 11 Groundwater

11.1	Overview	11-1
11.2	EES objectives and key issues	11-2
11.3	Legislation, policy and guidelines	11-2
11.3.1	Environment Reference Standard	11-4
11.4	Investigation area	11-4
11.5	Method	11-5
11.5.1	Existing conditions	11-7
11.5.2	Impact assessment	11-7
11.6	Existing conditions	11-1
11.6.1	Geology	11-7
11.6.2	Depth to groundwater	11-11
11.6.3	Groundwater flow, recharge and discharge	11-13

11.6.4	Groundwater quality	11-13
11.6.5	Groundwater users	11-13
11.6.6	Groundwater dependent ecosystems	11-15
11.6.7	Stygofauna	11-7
11.7	Impact assessment	11-7
11.7.1	Impact pathways	11-11
11.7.2	Design mitigation	11-9
11.7.3	Environmental management measures	11-20
11.7.4	Residual impacts	11-24
11.7.5	Impact assessment summary	11-26
11.8	Conclusions	11-32

Chapter 12 Surface water

12.1	Overview	12-1
12.2	EES objectives and key issues	12-1
12.3	Legislation, policy and guidelines	12-2
12.3.1	Environment Reference Standard	12-5
12.4	Investigation area	12-6
12.5	Method	12-8
12.5.1	Desktop assessment	12-8
12.5.2	Surface water modelling	12-8
12.5.3	Field surveys	12-9
12.5.4	Impact assessment	12-12
12.6	Existing conditions	12-12
12.6.1	Catchments	12-12
12.6.2	Watercourses	12-14
12.6.3	Wetlands	12-23
12.6.4	Climate change	12-26
12.7	Impact assessment	12-28
12.7.1	Impact pathways	12-28
12.7.2	Design mitigation	12-29
12.7.3	Environmental management measures	12-36

12.7.4	Residual impacts	12-40
12.7.5	Impact assessment summary	12-43
12.8	Conclusions	12-50

Chapter 13 Landform and Soils

13.1	Overview	13-1
13.2	EES objectives and key issues	13-1
13.3	Legislation, policy and guidelines	13-2
13.4	Investigation area	13-4
13.5	Method	13-1
13.6	Existing conditions	13-2
13.6.1	Geology and geomorphology	13-2
13.6.2	Sites of geological significance	13-6
13.6.3	Landform and soils	13-6
13.6.4	Potential contamination	13-9
13.7	Impact assessment	13-10
13.7.1	Impact pathways	13-10
13.7.2	Design mitigation	13-10
13.7.3	Environmental management measures	13-11
13.7.4	Residual impacts	13-14
13.7.5	Impact assessment summary	13-16
13.8	Conclusions	13-20

Chapter 14 Landscape and visual

14.1	Overview	14-1
14.2	EES objectives and key issues	14-2
14.3	Legislation, policy and guidelines	14-2
14.4	Investigation area	14-5
14.5	Method	14-5
14.5.1	Existing conditions assessment	14-5
14.5.2	Impact assessment	14-10
14.5.3	Cumulative visual impacts	14-12
14.5.4	Mitigation	14-12
14.6	Existing conditions	14-12

14.6.1	Key landscape features	14-6
14.6.2	Landscape character and scenic quality	14-6
14.6.3	Viewpoints	14-2
14.6.4	Dwellings	14-2
14.6.5	Operating and approved wind farms	14-2
14.7	Impact assessment	14-25
14.7.1	Impact pathways	14-25
14.7.2	Design mitigation	14-25
14.7.3	Environmental management measures	14-25
14.7.4	Residual impacts	14-27
14.7.5	Impact assessment summary	14-38
14.8	Conclusions	14-40

Chapter 15 Shadow flicker and blade glint

15.1	Overview	15-1
15.2	EES objectives and key issues	15-1
15.3	Legislation, policy and guidelines	15-2
15.4	Investigation area	15-2
15.5	Method	15-5
15.5.1	Theoretical modelled shadow flicker	15-5
15.5.2	Measured shadow flicker	15-5
15.5.3	Blade glint	15-6
15.6	Impact assessment	15-6
15.6.1	Impact pathways	15-6
15.6.2	Design mitigation	15-7
15.6.3	Environmental management measures	15-7
15.6.4	Residual impacts	15-8
15.6.5	Impact assessment summary	15-10
15.7	Conclusions	15-11

Chapter 16 Air quality and greenhouse gas

16.1	Overview	16-1
16.2	EES objective and key issues	16-2
16.3	Legislation, policy and guidelines	16-2
16.4	Investigation area	16-5

16.4.1	Air quality	16-5
16.4.2	GHG emissions	16-5
16.5	Method	16-5
16.5.1	Air quality	16-5
16.5.2	GHG emissions	16-8
16.6	Existing conditions	16-9
16.6.1	Topography	16-9
16.6.2	Sensitive receptors	16-11
16.6.3	Local climate and meteorology	16-11
16.6.4	Existing air quality	16-14
16.6.5	GHG emissions	16-17
16.7	Impact assessment	16-18
16.7.1	Impact pathways	16-18
16.7.2	Design mitigation	16-23
16.7.3	Environmental management measures	16-24
16.7.4	Residual impacts	16-29
16.7.5	Cumulative impacts	16-30
16.7.6	Impact assessment summary	16-31
16.8	Conclusion	16-33

Chapter 17 Noise and vibration

17.1	Overview	17-1
17.2	EES objectives and key issues	17-1
17.3	Legislation, policy and guidelines	17-2
17.3.1	Working hours	17-5
17.3.2	Applicable noise limits	17-6
17.4	Investigation area	17-8
17.5	Method	17-10
17.5.1	Background noise monitoring	17-10
17.5.2	Predicted noise levels	17-12
17.5.3	Risk assessment	17-13
17.6	Existing conditions	17-13
17.6.1	Receivers	17-13

17.6.2	Natural areas	17-13
17.7	Impact assessment	17-15
17.7.1	Impact pathways	17-15
17.7.2	Design mitigation	17-15
17.7.3	Environmental management measures	17-15
17.7.4	Residual impacts	17-20
17.7.5	Cumulative impacts	17-30
17.7.6	Impact assessment summary	17-30
17.8	Conclusions	17-33

Chapter 18 Aboriginal cultural heritage

18.1	Overview	18-1
18.2	EES objectives and key issues	18-1
18.3	Legislation, policy and guidelines	18-2
18.4	Cultural Heritage Management Plan	18-3
18.5	Investigation area	18-4
18.6	Method	18-4
18.6.1	Desktop assessment	18-5
18.6.2	Standard assessment	18-5
18.6.3	Complex assessment	18-7
18.6.4	Intangible cultural heritage	18-12
18.7	Existing conditions	18-12
18.7.1	Regional Context	18-12
18.7.2	Aboriginal Context	18-12
18.7.3	Intangible Aboriginal Cultural Heritage	18-13
18.7.4	Aboriginal Cultural Heritage potential	18-14
18.7.5	Assessment findings	18-16
18.7.6	Standard and complex assessment conclusions	18-20
18.8	Impact assessment	18-20
18.8.1	Impact pathways	18-20
18.8.2	Cumulative impacts	18-21
18.8.3	Design mitigation	18-21
18.8.4	Environmental management measures	18-22

18.8.5	Residual impacts	18-26
18.8.6	Impact assessment summary	18-26
18.9	Conclusions	18-28

Chapter 19 Historical cultural heritage

19.1	Overview	19-1
19.2	EES objective and key issues	19-1
19.3	Legislation, policy and guidelines	19-2
19.4	Investigation area	19-3
19.5	Method	19-3
19.5.1	Desktop assessment	19-3
19.5.2	Field assessment	19-4
19.6	Existing conditions	19-4
19.6.1	Historical heritage places identified during the desktop assessment	19-4
19.6.2	Historical heritage places identified during the field surveys	19-5
19.7	Impact assessment	19-8
19.7.1	Impact pathways	19-8
19.7.2	Design mitigation	19-8
19.7.3	Environmental management measures	19-8
19.7.4	Residual impacts	19-10
19.8	Conclusions	19-11

Chapter 20 Land use and planning

20.1	Overview	20-1
20.2	EES objectives and key issues	20-2
20.3	Legislation, policy and guidelines	20-2
20.4	Investigation area	20-5
20.5	Method	20-7
20.5.1	Existing conditions	20-7
20.5.2	Impact assessment	20-7
20.5.3	Cumulative impacts	20-8
20.6	Existing conditions	20-8

20.6.1	Moyne Planning Scheme	20-8
20.6.2	Land use	20-15
20.6.3	Dwellings in proximity to wind turbines	20-16
20.7	Impact assessment	20-18
20.7.1	Impact pathways	20-18
20.7.2	Design mitigation	20-19
20.7.3	Environmental management measures	20-19
20.7.4	Residual impacts	20-22
20.7.5	Cumulative impacts	20-25
20.7.6	Impact assessment summary	20-26
20.8	Conclusions	20-31

Chapter 21 Socio-economic

21.1	Overview	21-1
21.2	EES objectives and key issues	21-1
21.3	Legislation, policy and guidelines	21-2
21.3.1	Ministerial guidelines for assessment of environmental effects	21-2
21.4	Investigation area	21-2
21.5	Method	21-7
21.5.1	Social Impact Assessment	21-7
21.5.2	Economic Impact Assessment	21-8
21.5.3	Stakeholder consultation	21-9
21.6	Existing conditions	21-9
21.6.1	Local profile	21-9
21.6.2	Larger regional centres	21-9
21.6.3	Community Resilience and Adaptive Capacity	21-11
21.7	Impact assessment	21-15
21.7.1	Impact pathways	21-16
21.7.2	Design mitigation	21-18
21.7.3	Environmental management measures	21-18
21.7.4	Residual impacts	21-22
21.7.1	Cumulative impacts	21-30
21.7.2	Impact assessment summary	21-31
21.8	Conclusions	21-37

Chapter 22 Aviation

22.1	Overview	22-1
22.2	EES objectives and key issues	22-2
22.3	Legislation, policy and guidelines	22-2
22.4	Investigation area	22-5
22.5	Method	22-5
22.6	Existing conditions	22-6
22.6.1	Aerodromes	22-6
22.6.2	Uncertified airstrips	22-6
22.6.3	Airspace and air routes	22-8
22.6.4	Existing aviation operations	22-8
22.6.5	Air traffic communications, navigation and surveillance	22-9
22.7	Impact assessment	22-9
22.7.1	Impact pathways	22-9
22.7.2	Design mitigation	22-10
22.7.3	Environmental management measures	22-11
22.7.4	Residual impacts	22-12
22.7.5	Impact assessment summary	22-15
22.8	Conclusions	22-17

Chapter 23 Fire risk

23.1	Overview	23-1
23.2	EES scoping requirements	23-1
23.3	Legislation, policy and guidelines	23-2
23.4	Investigation area	23-3
23.5	Method	23-6
23.6	Existing conditions	23-7
23.7.1	Bushfire prone area	23-7
23.7.2	Moyne Planning Scheme	23-7
23.7.3	Bushfire history	23-7
23.7.4	Existing fire risk	23-10
23.8	Impact assessment	23-11
23.8.1	Impact pathways	23-11
23.8.2	Assessment against Clause 13.02-1S Bushfire Planning	23-12

23.8.3	Design mitigation	23-12
23.8.4	Environmental management measures	23-13
23.8.5	Residual impacts	23-15
23.9	Conclusions	23-18

Chapter 24 Electromagnetic interference

24.1	Overview	24-1
24.2	EES objectives and key issues	24-1
24.3	Legislation, policy and guidelines	24-2
24.4	Investigation area	24-3
24.5	Method	24-3
24.6	Existing conditions	24-4
24.6.1	Radio communication towers	24-4
24.6.2	Fixed point-to-point licences	24-4
24.6.3	Fixed point-to-multipoint licences	24-4
24.6.4	Other licence types and services	24-6
24.7	Impact assessment	24-9
24.7.1	Impact pathways	24-9
24.7.2	Design mitigation	24-9
24.7.3	Environmental management measures	24-10
24.7.4	Residual impacts	24-13
24.7.5	Cumulative impact	24-15
24.7.6	Impact assessment summary	24-16
24.8	Conclusions	24-21

Chapter 25 Traffic and transport

25.1	Overview	25-1
25.2	EES objectives and key issues	25-2
25.3	Legislation, policy and guidelines	25-2
25.4	Investigation area	25-3
25.5	Method	25-5
25.5.1	Impact Rating	25-5
25.6	Existing conditions	25-6
25.6.1	Existing road network and use	25-6

25.6.2	Sensitive road users	25-8
25.7	Project transport and access elements	25-11
25.7.1	Project access	25-11
25.7.2	Transport elements	25-13
25.8	Impact assessment	25-17
25.8.1	Impact pathways	25-17
25.8.2	Design mitigation	25-18
25.8.3	Environmental management measures	25-20
25.8.4	Summary of environmental management measures	25-24
25.8.5	Residual impacts	25-26
25.8.6	Cumulative Impacts	25-29
25.8.7	Impact assessment summary	25-30
25.9	Conclusions	25-34

Chapter 26 Cumulative effects

26.1	Overview	26-1
26.2	EES objectives and key issues	26-2
26.3	Legislation, policy and guidelines	26-3
26.4	Method	26-3
26.5	Existing and planned activities assessed	26-4
26.6	Cumulative impact assessment	26-11
26.6.1	Biodiversity and habitat	26-11
26.6.2	Bats	26-13
26.6.3	Brolga	26-14
26.6.4	Groundwater and surface water	26-15
26.6.5	Landscape and visual	26-15
26.6.6	Shadow flicker and blade glint	26-18
26.6.7	Air quality and greenhouse gas	26-18
26.6.8	Noise and vibration	26-18
26.6.9	Aboriginal cultural heritage	26-19
26.6.10	Historical cultural heritage	26-20
26.6.11	Land use and planning	26-20
26.6.12	Socio-economic	26-21
26.6.13	Aviation	26-24
26.6.14	Fire risk	26-24

26.6.15	Electromagnetic interference	26-24
26.6.16	Traffic and transport	26-25
26.7	Conclusions	26-27

Chapter 27 Matters of National Environmental Significance

27.1	Overview	27-1
27.2	EES objectives and key issues	27-2
27.3	Legislation, policy and guidelines	27-3
27.4	Investigation area	27-5
27.5	Method	27-6
27.5.1	Desktop review	27-7
27.5.1	Targeted surveys and assessment	27-7
27.5.2	Significant impact assessment	27-10
27.5.3	Offset management	27-10
27.6	Matters of National Environmental Significance	27-10
27.6.1	Flora species	27-10
27.6.2	Ecological communities	27-11
27.6.3	Fauna species	27-13
27.7	Impact assessment	27-16
27.7.1	Impact pathways	27-16
27.7.2	Design mitigation	27-17
27.7.3	Environmental management measures	27-20
27.7.4	Residual impacts	27-29
27.7.5	Offsets	27-39
27.7.6	Cumulative impacts	27-40
27.8	Conclusions	27-41

Chapter 28 Environmental management framework

28.1	Overview	28-1
28.2	Purpose of the Environmental Management Framework	28-1
28.3	Statutory approvals and consents	28-2
28.3.1	Primary approvals	28-3
28.3.2	Secondary approvals and consents	28-4

28.3.3	<i>Environment Protection Act</i>	28-4
28.4	Roles and responsibilities	28-4
28.5	Environmental management	28-8
28.5.1	Environmental management system	28-8
28.5.2	Environmental management documents	28-9
28.5.3	Monitoring	28-13
28.5.4	Auditing and reporting	28-14
28.5.5	Contingency measures	28-15
28.5.6	Environmental incidents and emergencies	28-16
28.5.7	Complaints recording and resolution	28-16
28.6	Environmental assessment and impact management	28-16
28.6.1	Baseline conditions	28-16
28.6.2	Risk assessment	28-17
28.6.3	Environmental Management Measures	28-17
28.7	Data management and accessibility	28-51
28.8	Change management process	28-51
28.8.1	Project design	28-51
28.8.2	Environmental management documents	28-52

Chapter 29 Conclusion

29.1	Overview	29-1
29.2	Summary of assessment against evaluation objectives	29-1
29.2.1	Biodiversity and habitat	29-2
29.2.2	Catchment values and hydrology	29-4
29.2.3	Landscape and visual	29-5
29.2.4	Amenity	29-6
29.2.5	Cultural heritage	29-8
29.2.6	Land use and socio-economic	29-10
29.2.7	Traffic and roads	29-12
29.3	Environmental management framework	29-13
29.4	Next steps	29-13
